

WE CLAIM:

1. A method for delivering a medicament to an individual comprising the steps of:

providing a product that includes a consumable center and a coating that substantially surrounds the consumable center, the coating containing a medicament and comprising at least 50% by weight of the product; and

placing the product in the mouth of the individual and causing the medicament to be released from the product into the buccal cavity of the individual.

2. The method of Claim 1 wherein the coating includes a high-intensity sweetener.

3. The method of Claim 1 wherein the high-intensity sweetener is chosen from the group consisting of aspartame, sucralose, saccharin, and acesulfame-k.

4. The method of Claim 1 wherein the coating is produced by alternating layers of a powder and a syrup onto the tableted center.

5. The method of Claim 1 wherein the consumable center is selected from the group consisting of a gummi confectionary, hard confectionary, confectionary starch, compressible sacharides, and compressible sugar alcohols.

6. The method of Claim 1 wherein the medicament is chosen from the group consisting of: analgesics; muscle relaxants; antibiotics; antivirals; antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic agents; insulin; vitamins; minerals; nutraceuticals; nutritional supplements; diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered pharmaceuticals; and cardiovascular agents.

7. The method of Claim 1 wherein the coating has a polished finish.

8. A product including a medicament comprising:

5 a consumable center; and

a coating including a medicament that surrounds the consumable center, the coating comprising at least 50% by weight of the product.

9. The product of Claim 8 wherein the medicament is chosen from the
10 group consisting of: analgesics; muscle relaxants; antibiotics; antivirals; stimulants; antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic agents; insulin; vitamins; minerals; nutaceuticals; nutritional supplements; diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered pharmaceuticals; and cardiovascular agents.

15

10. The product of Claim 8 wherein the coating includes a taste masking agent.

11. The product of Claim 10 wherein the taste masking agent is chosen
20 from the group consisting of: zinc gluconate, ethyl maltol, glycine, acesulfame-k, aspartame; saccharin; fructose; xylitol; isomalt; maltitol; spray dried licorice root; glycerrhizine; sodium gluconate; glucono delta-lactone; ethyl vanillin; dextrose; sucralose; vanillin; and ethyl maltol.

25 12. The product of Claim 10 wherein the taste masking agent comprises approximately 30% to about 99% by weight of the coating.

13. The product of Claim 8 wherein the coating includes approximately
0.1% to about 5% by weight of a high-intensity sweetener chosen from the group
30 consisting of aspartame, sucralose, saccharine, and acesulfame-k.

14. The product of Claim 8 wherein the consumable center is selected from the group consisting of hard confectionaries, gummi confectionaries, confectionary starches, and compressible excipients.

5

15. The product of Claim 8 wherein the coating does not have a shellac layer.

16. A product including a medicament comprising:

10

a consumable tableted center; and

a coating that at least substantially surrounds the consumable tableted center and includes a medicament the coating comprising at least 50% of the product by weight.

15

17. The product of Claim 16 wherein the medicament is chosen from the group consisting of: analgesics; muscle relaxants; antibiotics; antivirals; stimulants; antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic agents; insulin; vitamins; minerals; nutraceuticals; nutritional supplements; diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered pharmaceuticals; and cardiovascular agents.

20

18. The product of Claim 16 wherein the consumable center is selected from the group consisting of hard confectionaries, gummi confectionaries, confectionary starches, and compressible excipients.

25

19. The product of Claim 16 wherein a taste masking agent comprises approximately 30% to about 99% by weight of the coating.

20. The product of Claim 16 wherein the coating includes approximately 0.1% to about 5% by weight of a high-intensity sweetener chosen from the group consisting of aspartame, sucralose, saccharine, and acesulfame-k.

5 21. A method of delivering a medicament comprising the steps of:
providing a product having a consumable center and a coating that substantially surrounds the center, the center comprising at least one compressible excipient and the coating including a medicament and comprising at least 50% by weight of the product; and
10 chewing the product to release the medicament into a buccal cavity of an individual chewing the product.

22. The method of Claim 21 wherein the medicament is chosen from the group consisting of: analgesics; muscle relaxants; antibiotics; antivirals;
15 antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic agents; nutraceuticals; nutritional supplements; diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered pharmaceuticals; and cardiovascular agents.

20 23. The product of Claim 21 wherein the consumable center is selected from the group consisting of hard confectionaries, gummi confectionaries, confectionary starches, and compressible excipients.

24. A method of manufacturing a product containing an agent
25 comprising the steps of:
preparing a center by tableting a consumable product to produce a tableted consumable center; and
coating the tableted consumable center by placing alternating layers of a powder and a syrup on the center to create a coated product, at least one of the
30 powder or syrup layers including at least one agent.

25. The method of Claim 24 wherein the coated product comprises at least 50% by weight syrup and powder coating.

5 26. The method of Claim 24 wherein the tableted consumable center includes at least one compressible excipient chosen from the group consisting of saccharides and sugar alcohols.

27. The method of Claim 24 wherein the coating includes a high-
10 intensity sweetener.

28. The method of Claim 24 wherein the agent is a medicament.

29. The method of Claim 28 wherein the medicament is chosen from
15 the group consisting of: analgesics; muscle relaxants; antibiotics; antivirals; antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic agents; insulin; vitamins; minerals; nutraceuticals; nutritional supplements; diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered pharmaceuticals; and cardiovascular agents.

20

30. The method of Claim 24 wherein at least two alternating layers are coated on to the tableted consumable center.

31. The method of Claim 24 wherein the powder comprises at least
25 70% by weight of the coating.

32. A method of delivering a medicament comprising the steps of:
providing a product including a consumable center having a predefined
shape and a coating that surrounds the center that includes a medicament; and

chewing the product for a sufficient time to cause a majority of the
medicament to be absorbed by a buccal cavity of the consumer.

33. The method of Claim 32 wherein the product comprises at least
5 50% by weight syrup and powder coating.

34. The method of Claim 32 wherein the medicament is chosen from
the group consisting of: analgesics; muscle relaxants; antibiotics; antivirals;
antihistamines; decongestants; anti-inflammatories; antacids; psychotherapeutic
10 agents; insulin; vitamins; minerals; nutraceuticals; nutritional supplements;
diuretics; vitamins; minerals; anesthetics; antitussives; bioengineered
pharmaceuticals; and cardiovascular agents.

35. The method of Claim 32 wherein the coating includes a high-
15 intensity sweetener.
